SOUTH BAY EXPRESSWAY & PARSONS WIN CONSTRUCTION MANAGEMENT ASSOCIATION OF AMERICA AWARD

(SAN DIEGO – May 9, 2008) – Parsons, Caltrans and South Bay Expressway were honored yesterday by the Construction Management Association of America (CMAA) San Diego chapter with a Transportation Project Achievement Award.

Presented at CMAA's First Annual Awards and Scholarship Banquet at the Town & Country Resort, the Transportation Project Achievement Award recognizes superior levels of overall management, safety, complexity, innovation and customer satisfaction throughout the construction management process.

"This award celebrates the hard work of everyone who contributed to building this first class road," said Greg Hulsizer, CEO of South Bay Expressway. "It is an honor to be recognized by CMAA for our highly skilled construction management team and ongoing efforts to ensure customer satisfaction."

The CMAA Annual Awards and Scholarship Banquet was attended by more than 300 community leaders and business representatives from San Diego.

"Thank you to CMAA for recognizing the complexity of this project and the importance of the construction management process," said Jay Gabrielson, South Bay Expressway construction manager for Parsons. "It is a privilege to accept this award on behalf of South Bay Expressway."

About South Bay Expressway

South Bay Expressway is a 10-mile express toll road that extends from SR-54 in Spring Valley to SR-905 near the International Border Crossing. This exciting, new transportation alternative offers a fast, reliable and scenic drive, every time. The new connection provides convenient access to Downtown, Sorrento Valley, I-8, I-15 North, Otay Mesa and Mexico. The construction of this first class express toll road was made possible through an innovative public/private partnership, and is one of the first roads of its kind in California and the U.S. For more information, visit www.southbayexpressway.com.

About Parsons

Parsons, one of the largest 100% employee-owned engineering and construction companies in the United States, is a leader in many diversified markets such as transportation, water, construction, education and public buildings, infrastructure, planning, commercial, industrial manufacturing, communications, environmental, healthcare, life sciences, critical facilities, nuclear and special materials, and homeland security. Parsons provides technical and management solutions to private industrial customers worldwide, as well as federal, regional, and local government agencies.
